• Cameras/Martin house request	The cameras are being used to catch illegal dumpers at drop-off sites. The cameras will be moved from site to site with two being dedicated to each county. No illegal dumpers have been caught yet. Mr. Braasch explained that Shore Park, a very nice park and drop-off site has nowhere to put a camera. He is suggesting that a martin house be built and in one of the slots we can hide the camera. Mr. Braasch will be building the martin house and wanted the Boards approval before he started. Everyone agreed that the martin house was a good idea.
• Non-Compactor Sites in Adams	We have recycling sites but no compactors at West Union or Manchester Schools, these are low use sites but over time it may be a good idea to add compactors because we save transportation expense with compactors.

County	Mr. Braasch shared some statistical charts regarding Adams County Schools recycling indicating the amount is increasing and soon it may be economically desirable to add the compactors. Paul also noted that on that back of the spreadsheet are the totals for the Clermont County Municipal Court Crew information.
