VI. SWMD WASTE REDUCED AND RECYCLED [OAC 3745-27-90 (F)(3)]

IMPORTANT NOTICE: When reviewing data submitted with the ADR, Ohio EPA evaluates the data for consistency with data from previous years and for quantities that seem particularly unusual for a given material. Ohio EPA encourages SWMDs to do the same evaluation of the data prior to submitting the ADR. SWMDs are encouraged to provide supporting data and documentation whenever possible for the recycling numbers reported in this section, and are encouraged to contact Ohio EPA with any questions.

VII. EXPLANATION OF DATA REPORTED IN TABLE VI.1

Table VII.1 Additional descriptions of specific materials reported in Table VI.1

Row No. (Table VI.1)	Material Listed	Explanation of atypical numbers, significant changes in quantities of a material recycled, or materials listed in Rows 21 through 30 which require additional details.
21	FGD Waste	There are 4 coal burning power plants now implementing improved air emission control technology and therefore generating and recycling more FGD material. This increase in recycling also indicates an upturn in drywall construction and an improvement in the overall economy.
22	Lead shot	This is a once in 40 years removal of lead shot from a private shooting range.
23	Calicum Hydroxide	This is a by product of acetylene production that had been stockpiled and is being used in acid neutralization.
Attach additional sheets as necessary. If additional data are attached please check here: <input type="checkbox"/>		

Table VII.2 Important issues affecting the recycling and waste reduction data in this report

Just the same as every year issues regarding FGD waste. If we count FGD waste, why can't we count animal waste that is composted?

VIII. NON-CREDITABLE/BENEFICIAL WASTE REDUCTION AND RECYCLING ACTIVITIES

Table VIII. 1 Other beneficial recycling activities - materials not creditable toward “solid waste” recycling totals (e.g. C&DD)

Material Type / Description	Residential/Commercial Tons Recycled (2010)	Industrial Tons Recycled (2010)	Total Tons Recycled (2010)
Animal Waste Compost	9,900.00		9900
The space below may be used to report additional recycling and waste reduction activities in the SWMD that were not reported in Section VI.			

IX. REVISIONS AND ADDITIONS TO SWMD RULES (attached)

Under Section 343.01(G) of the Ohio Revised Code, SWMDs have the authority to adopt rules after final Plan approval, provided the approved Plan authorizes the SWMD to do so. Please attach one copy of all final rules adopted and/or modified by the SWMD during 2010 [OAC 3745-27-90 (F)(5)].

Please check here if information pertaining to Section IX is attached to this report.

C. Funding issues that affected the SWMD's operations during the report year or new issues anticipated to affect the SWMD:

Expenses exceed income again. We will need to reduce services or increase fees in SWP revision underway.

D. Significant changes in revenue and/or expenditures from Plan projections:

Provide a brief explanation if revenue and expenditures for the report year deviated significantly from those projected in the SWMD's currently approved Plan.
